

RECHARGEABLE, MULTI-FUNCTION LED EMERGENCY LAMP

PolyBrite's Borealis rechargeable, multi-function LED Emergency Lamp ensures that you are never left in the dark. During normal operation, the Borealis Emergency Lamp can be used as a general light source in a standard lamp socket. While in use, the lamp is recharged with a built-in charger. The lamp can then be removed from the socket and switched from AC to DC and used as a flashlight.

FEATURES
